

Roundtable “Facing the decarbonisation challenge”

Elcano Royal Institute, Madrid.

Monday, 2 December 2019, 16:00h – 18:00h.

“Modelling Article 6 - The importance of international cooperation in developing”

Stefano De Clara is the International Policy Director at the International Emissions Trading Association (IETA). Stefano joined IETA in 2014, initially focusing on the EU ETS and UNFCCC negotiations. He currently heads IETA’s international work, covering the implementation of the Paris Agreement, Article 6, and international carbon markets. Leading IETA’s Business Partnership for Market Readiness (B-PMR) initiative, he also focuses on emerging carbon markets, particularly in Asia.

Prior to joining IETA he focused on emissions trading in the Academia and for consulting companies. He holds a M.Sc. in Sustainable Development from the Utrecht University and a B.Sc. in Environmental Science from the University of Trieste.

“Repsol’s roadmap for the energy transition”

Luis Cabra Dueñas is the Executive Managing Director of Technology Development, Resources and Sustainability and is also a member of Repsol’s Executive Committee. His responsibilities include key technical areas of the company’s strategy such as IT, digitalization, technology, engineering and sustainability. He also leads the following areas: auditing and control, risk, insurance, reserve control, global services, property management, procurement and corporate security.

Between 2012 and July 2018, Cabra served as the Executive Managing Director of Exploration and Production. Under his stewardship, the company made world class discoveries and doubled its production by integrating the assets and teams of Talisman. He also launched a wide-ranging efficiency program 2015-2017 that consolidated the company’s exploration and production business.

He joined Repsol in 1984 as a process engineer at the A Coruña refinery in Spain. Since then, he has held management positions in the Refining, Technology, Engineering, Procurement and Safety and Environment units. In 2010, he moved to Repsol’s Upstream division as Executive Director of Development and Production.

Luis Cabra holds a PhD in Chemical Engineering from the Complutense University of Madrid, and has business management studies at the international schools INSEAD and IMD. In addition, he has worked as a head lecturer and associate lecturer at the Complutense University of Madrid and the University of Castilla-La Mancha.

He has also represented Repsol in various international associations, serving as Chairman of the Fuel Committee of the European Petroleum Industry Association, Chairman of the European Biofuels Technology Platform and member of the European Research Advisory Board.
